LEGO®

MINDSTORMS

EV3

Ed Hall
CIS Instructor
Seward County Community College

Ed.hall@sccc.edu
Timeline

2013 - Volunteered as Robotics Judge at local FIRST LEGO League (FLL) competition

2013-2014 - Designed and submitted course

2015 - First taught with 5 kits and 15 students

2017 - Expecting 21 students

SEWARD COUNTY COMMUNITY COLLEGE
Students learn how to break down complex problems into smaller solvable portions and then come together to apply the solutions.
LEGO® provides a version of National Instruments LabVIEW software that integrates with all of the sensors and motors connected to the EV3.
Students design and build robots to solve given problems. The robots are then programmed to run autonomously.

Robots can also be remote controlled.
Basic instructions are given to build the initial robot. From that point on, students use the kit parts to add functionality.
Each program must be documented. The documentation includes the processes followed to build and program the robot along with correction to any inconsistencies or issues encountered in producing the solutions.
TEXTBOOK

by

Terry Griffin

October 2014, 276 pp.
Full Color

Price:
Print Book and free Ebook: $34.95
Ebook (PDF, Mobi, and ePub): $27.95
LEGO MINDSTORMS Education EV3 Core Set

$389.95

For 2 students
LEGO MINDSTORMS Education EV3 Expansion Set

45550

$101.95

1  For 2 students
