Blackboard Building Blocks

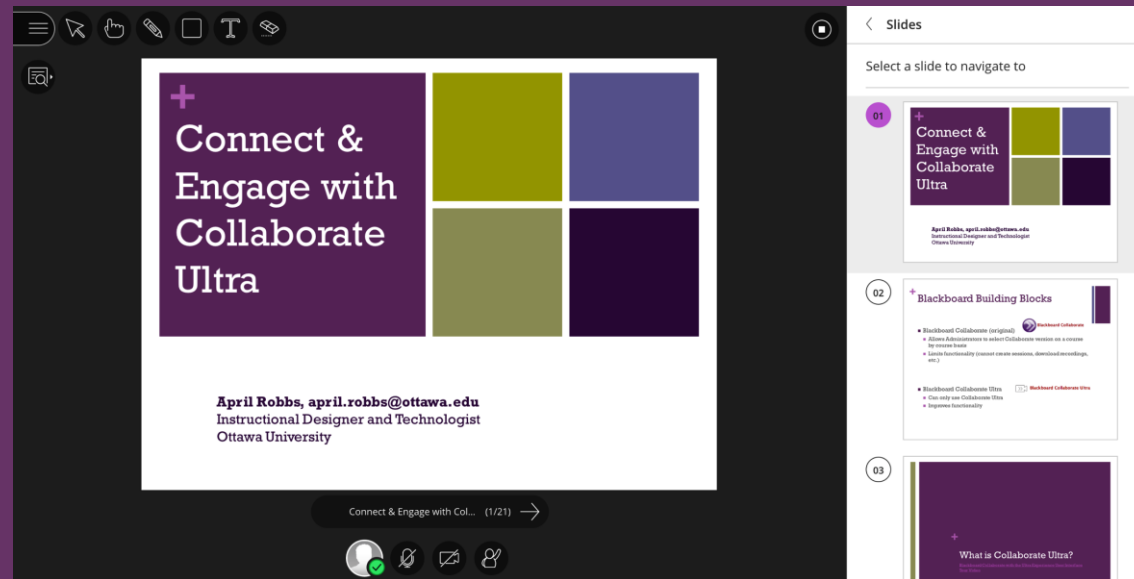

Blackboard Collaborate

- Blackboard Collaborate (original)
 - Allows Administrators to select Collaborate version on a course by course basis
 - Limits functionality (cannot create sessions, download recordings, etc.)

Blackboard Collaborate Ultra

- Blackboard Collaborate Ultra
 - Can only use Collaborate Ultra
 - Improves functionality

What is Collaborate Ultra?

[Blackboard Collaborate with the Ultra Experience User Interface Tour Video](#)

+ Features

- Browser-based video conferencing tool
- Integrates with LTI compliant LMSs (Blackboard, Moodle, D2L)
- It works best in Chrome, but Firefox is supported
- Provides accessibility features (Live Captioning*, Screen Reader Compatible, Keyboard Navigation)
 - More information on [Accessibility](#)

* Requires a live captioner to be present

+ Set-Up

- Each course has a Collaborate Room
- Instructors can make unlimited number of sessions for meetings
- Each session is customizable and has its own meeting space

The screenshot displays the Blackboard Collaborate Ultra interface. At the top, it says "Blackboard Collaborate Ultra" and "Sessions". Below this, there is a "Course Room" section with a "Join room" button. A "Create Session" button is also visible. The main part of the interface is a table listing sessions with columns for "Name", "Starts", and "Ends".

+ Session Menu

A screenshot of a Blackboard Collaborate session menu. The menu is dark-themed and titled "Week 1 Review". It contains several options, each with an icon and a horizontal line below it. The options are: "Start Recording" (camera icon), "Use your phone for audio" (phone icon), "Report an issue" (speech bubble icon), "Blackboard Collaborate Help" (question mark icon), and "Tell me about Collaborate" (lightbulb icon). The "Tell me about Collaborate" option has a "New!" label and a three-dot menu icon to its right. At the bottom of the menu, there is a "Leave Session" option with a red arrow icon pointing left.

Use Cases

+ Online Office Hours

- Provide a weekly window for students to join you online
- Schedule one-on-one sessions with students who need additional support
- Meet with students one-on-one to provide feedback/updates on course work or projects
- Informal meeting times with students to answer questions
- Virtual tech support

Discussion

Online Office Hours

- What are some challenges you have experienced with online office hours?
- What feedback have you received from students?
- What are some best practices?

+ Formal Class Meetings

- Provide regularly scheduled meetings during an online class
- Live instruction (lectures or demonstrations)
- Question and answer sessions
- Guest speakers at a distance
- Breakout Groups can be used for group activities during a meeting
- Polling feature facilitates informal assessment (no tracking/grading capabilities)
- Students can show their status to show how they feel about something in the session

Discussion

Formal Class Meetings

- What are some challenges you have experienced with formal class meetings?
- What feedback have you received from students?
- What are some best practices?

+ Blended/Hybrid Classes

- Facilitate meeting between students in different geographical locations
 - Different campus sites
 - Different institutions
- Examples:
 - Executive MBA programs
 - “Networked Learning”
 - Globally Networked Learning

Discussion

Blended/Hybrid Courses

- What are some challenges you have experienced with blended/hybrid courses?
- What feedback have you received from students?
- What are some best practices?

+ Group Meeting Space

- Currently not built in to the Groups tool in Blackboard, but in development for future
- Instructor can set up sessions for groups to use for meetings
- Students can be given “Moderator” role so that they can record group sessions
- *Note: All students have access to all sessions in the course*

Discussion

Group Work

- What are some challenges you have experienced with groups?
- What feedback have you received from students?
- What are some best practices?

+ Presentations

- Students can present live to peers and/or outside parties
- Collaborate allows you to provide a guest link to all sessions or rooms
- Scheduling conflict challenges
 - Scheduling Tools like [Doodle](#)
 - Whole class or smaller groups
 - Present to a friend or family member
 - Present to instructor only

Discussion

Presentations

- What are some challenges you have experienced with presentations?
- What feedback have you received from students?
- What are some best practices?

Recording Presentations (Instructor)

- Instructors can record instructional videos for class in Collaborate
- Share links to recordings in an announcement, or any content area in Blackboard
- Embed videos using the Mashups tool in content areas in Blackboard

Recording Presentations (Students)

- Students must have “Moderator” privileges in sessions to record
- Students can record narrated presentations in Collaborate (with or without a live audience)
- Create a separate session for each student or each group
- Students cannot access the compact URL for recording

Discussion

Recordings

- What are some challenges you have experienced with recordings?
- What feedback have you received from students?
- What are some best practices?

+ Potential Challenges

- All active sessions or recordings are public to the entire class
- The only way to name recordings is to create a session with the specific name needed for the recording
- Student Support
- Student access to technology (need microphone, stable internet, webcam)
- Faculty training and maintaining documentation
