### Moodle Updates

- Multiple unknown vulnerabilities in Moodle before 1.5.1 have unknown impact and attain a score of 10.0.
- The Database module in Moodle before 1.6.2 does not properly handle uploaded files.
- Moodle before 1.6.2 does not properly validate the module instance id when creating a course module object.
- Moodle 1.5.2 and earlier stores sensitive information under the web root with insufficient access control, allowing attackers to obtain user names, password hashes, and other sensitive information via a direct request for the information.
- SQL injection vulnerability in sql.php in the Glossary module in Moodle 1.4.1 and earlier allows remote attackers to obtain sensitive data.
Boost Theme

New for Moodle 3.2

Moodle Themes

Demo: http://school.demo.moodle.net
Essential

Moodle 2.9 +

Moodle Themes
• jQuery – Moodle 2.9 +

Moodle Themes
• K.I.S.S – Keep it Super Simple
• Less is More
• Have A Standard
Questionnaire

Types of questions
- Check Boxes
- Date Box
- Dropdown choices
- Essay box - HTML editor possible, set width and height of box
- Numeric - can set length and number of decimal places
- Radio buttons - have labels you determine for each question
- Scale - can customize in many ways
- Text box
- Yes/no

You can also place:
- Page breaks
- Labels - might be used to give an overview of next set of questions

Types of reports
- Responses can be viewed by everyone or select group

Export text file
Responses can be exported as a Tab separated text file.
- Each column contains a field for: Submitted on (date time), Institution, Department, Course, ID (user ID), Full name, Username, and each question.
- The settings allow two check boxes to show the user choice code and to show the use choice text.

Moodle Plugins
• Questionnaire

- Add questions
  - Rate (scale 1..5)
  - Add selected question type

- Manage questions
